

Amendments to the specification:

Please amend the abstract as follows:

A flexographic printing plate includes a raised part ~~(2)~~ for transferring a printing substance to a printing substrate, the raised part ~~(2)~~ having a top surface and a side, the top surface and the side forming an angle of not less than 90° and not more than 105°. More preferably, the top surface and the side form an angle of not less than 95° and not more than 100°. A flexographic printer includes a flexographic printing plate as described above.
